**PRESS RELEASE | Partnership with Hellenic Gaming Commission**

Honored to announce our new partnership with the **Hellenic Gaming Commission** in the regulated gaming services digital protection domain.

We are thrilled for this very first collaboration with an **Independent Public Entity** and excited to work on this worldwide hot betting & gambling area.

At **Mediastalker** we celebrate this milestone set from the beginning. That was to establish a strong footprint on our core business while enhancing and further expanding our technology and operational model to scale and serve different industries.

The **Hellenic Gaming Commission** (HGC) is an independent administrative Authority, responsible for regulating, supervising and auditing games of chance carried out in the Greek Territory.

**Mediastalker™** is an AI/ML-powered virtual agent developed to protect the intellectual property of digital content on the internet on behalf of creators and copyright owners, expanding in more industries.
